(c) whether Government have created adequate infrastructure like laboratories, libraries, classrooms, teachers, etc. to achieve the target; and

(d) if so. the details thereof?

THE MINISTER OF HUMAN RESOURCE DEVELOPMENT (SHRI ARJUN SINGH): (a) to (d) Subject to finalization of the Eleventh Plan, the Gross Enrolment Ratio (GER) in higher education is proposed to be increased to 15% by 2011-2012, from the present GER of about 10%.

The existing total enrolment of about 128 lakh students in higher education (2006-07) is proposed to be increased to 212 lakh students by the year 2011-12.

Public investments are expected to be enhanced during Eleventh Five Year Plan, both for establishing new colleges and new universities as well as for strengthening the existing institutions. Central Universities, State Universities and Colleges will be supported for creating adequate infrastructure in order to address the concerns of quality, access and equity in higher education.

An important strategy of expansion consists of development of institutional capacity in all institutions with special focus on backward, rural, remote areas and small towns. Resources permitting, Government is considering to establish 30 new Central Universities and to provide some assistance to the State Governments, to incentivise them to establish at least one college in each district which has a low GER, during the Eleventh Plan period.

Expenditure on renewable energy

*23. SHRI THENNALA G. BALAKRISHNA PILLAI: Will the Minister of NEW AND RENEWABLE ENERGY be pleased to state:

(a) the total amount spent for the production and setting-up units for renewable energy during the last five years, State-wise; and

(b) the total production of renewable energy, State-wise?

THE MINISTER OF STATE OF THE MINISTRY OF NEW AND RENEWABLE ENERGY (SHRI VILAS MUTTEMWAR): (a) An expenditure of Rs. 1718.69 crore has been incurred towards development and deployment of new and renewable energy systems/devices in different States under various programmes of the Ministry during the last five years, *i.e.,* 2002-07, corresponding to the Tenth Plan period. State-wise details of the expenditure are given in Statement-I *(See* below). This expenditure has leveraged an estimated investment of around Rs. 35,000 crore, mostly through private sector.

(b) State-wise details of achievements under the various renewable energy programmes during the aforesaid period are given in Statement-II.

Statement-I

Expenditure incurred on development and deployment of New and Renewable Energy systems/devices under variousprogrammes during 2002-7All figures in Rupees in crore
